Profile Summary

As an IT professional with over 2 years of experience, I have honed my skills in JavaScript, ReactJS, and NodeJS. I have successfully executed projects using Azure Cloud Services, Trello, and Jira, while also being responsible for requirement gathering, UI design, and API implementation. My experience includes working on applications such as Increment Cycle Web Application, Competency Web Portal, BlueTest Portal, and Clearview. I am adept at frontend development, UI development, and cloud technologies, and I am seeking an opportunity to maximize my potential.
